PART III—Section 2

NOTIFICATIONS BY THE HEADS OF DEPARTMENTS

JUDICIAL DEPARTMENT

MYSORE DISTRICT.

Notification dated 11—17th May 1948.

No. G2. 3—47-48. Government have been pleased to instruct that many of the permit holders of Motor Bus Services have not got their buses fitted up with Charcoal-Gas plants and that they have therefore been issued petrol only for 10 or 15 days in a month but that they are running their services on all the days apparently taking advantage of the fact that they have credited the mileage for the entire period. Evidently the petrol for plying the services on the remaining days must have been secured surruptitiously. If the running of the services is strictly restricted to the number of trips for which petrol is issued it works hard on the permit holders on the one hand as they will have to pay mileage cess for the trips not r[illegible] according to rules, which may not appear to be reasonable and to the travelling public on the other as the usual services are not run on all the days besides causing loss of revenue to Government, if the mileage cess is recovered only for the trips actually run.

Government have also pressed the need for exercising strict economy in the use of petrol by issuing petrol on the basis of actual consumption.

To remedy the above disadvantages, Government have been pleased to issue instructions directing that all the permit holders of bus services who have not got their buses fitted up with gas plants should do so immediately and that if they fail to do so their permits would be cancelled and fresh permits issued in favour of persons who would come forward to run the services with buses fitted up with gas plants.

The permit holders of all the bus services in the District are therefore hereby requested and informed to arrange for their buses being fitted up with gas plants within a month from this date failing which their permits would be cancelled and fresh permits for running those services issued in favour of persons who could run them with buses fitted up with gas plants.
